

# It takes the right players to get to your goal

Saving for the long term isn't that different from getting the puck in the goal. You need to have your eye on the prize, make a few sacrifices along the way and have the right players helping you to move closer to your goal.

Where saving for retirement is concerned, a Registered Retirement Savings Plan (RRSP) is undeniably one of the best players to have on your team. This long-term savings account that is registered with Canada Revenue Agency has a long list of benefits.

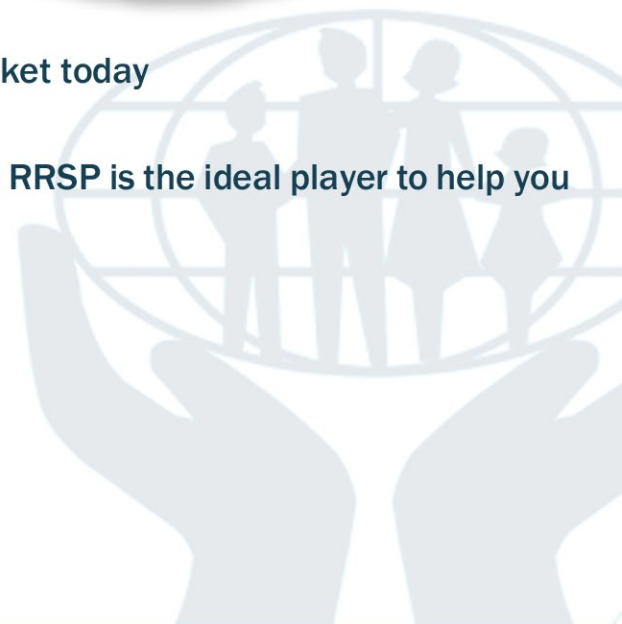

The top three are that it:

- provides a steady, reliable savings tool
- can be as aggressive as you want it to be
- will reduce your taxes and put more money in your pocket today

So while it's always a good idea to have a diverse roster, an RRSP is the ideal player to help you cut your tax bill and save for the future.
